

Zoom in on our different lafuma mobilier ranges

In this article, we wanted to give you a summary of our different categories of products to help you choose the best model to furnish your outdoor living space, and which will be with you in your moments of daily relaxation.

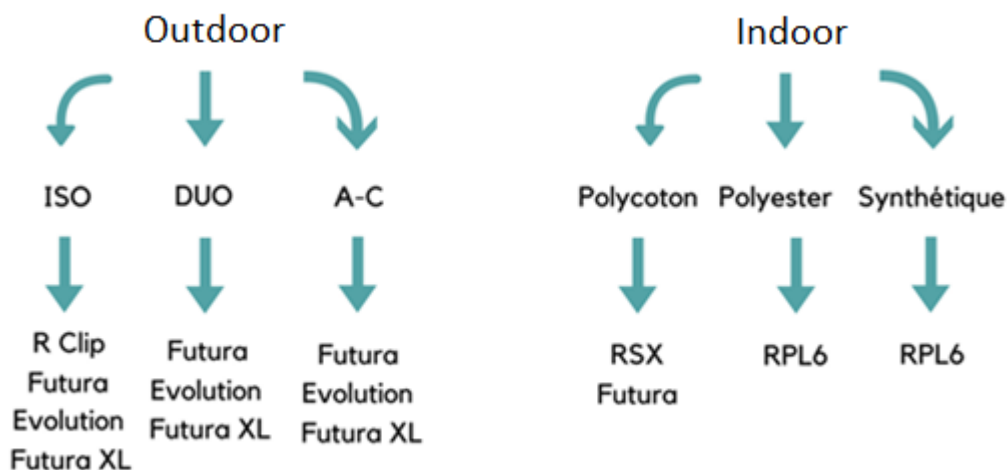

The famous relaxation chairs

It can sometimes prove to be difficult to choose between these armchairs, which are all as comfortable as each other. To find the perfect relaxing chair, we have prepared a little summary which may come in handy.

Nevertheless, certain criteria apply to all of our Relax chairs, such as the 127° position, for assured comfort. The multi-position seat is adjustable, and with stabilisers located under the armrests, you can gently tilt yourself back. All of our chairs are equipped with adjustable headrests for comfort which goes beyond the norm, except for the Evolution Air Comfort model which has an integral headrest.

Being both resistant to UV rays and to weather damage, the fabrics on our Relax chairs are all different and all comfortable. They can be changed very quickly to suit your tastes.

In other words, there are many opportunities to relax, both indoors and outdoors!

The iconic Pop up

At the beginning of the 1990s the brand decided to refresh its furniture range to attract a younger market, and this is when the Pop Up was born. What is clever about it? The “umbrella-style” folding which makes it compact and light when folded. In addition, its fabric can be removed and changed to suit your tastes.

The Pop Up, an English name that suggests instant unfolding, has quickly become an iconic model. Increasingly considered as a true decorative object, this chair with its timeless, lounge look continues to be popular with young and old alike. The clever design is meant for everyone, whether you are a student in a tiny 15m2 space, or a large family. Today, its big brother continues the succession, this one being called the style chair Pop Up XL. Its wider seat offers even more comfort!

Our high-backed chairs are synonymous with comfort

Now we will introduce one of our new items for this year, the Zen-It, our latest in the range of chairs with 5 positions.

The very ergonomic back has been designed to ensure perfect support and maximum comfort in every position, as much as for the neck as the lumbar zone. Without mentioning its aluminium frame giving it unrivalled lightness. As for the armrests, with their pure lines and adjustability, they offer 5 seating positions, each one more comfortable than the rest: dining position, the end of the meal, a relaxation break, reading, and tilted back to lie down for a nap. The handle on the rear of the backrest makes it easy to carry around.

Enjoy moments with friends or simply peace, either around a large table or alone at the bottom of the garden ... Why not just Zen It !
